Detailed Action

Notice to Applicant

Election/Restrictions

1. This communication is in response to the RCE filed on 12/17/07. Claims 98 and 99 have been newly added. Claims 18-19, 24-29, 60-69, and 71-99 are pending.
1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 18-19, 27- 29, 60-69, 75, 80 and 98 drawn to a method for providing an insurance policy, classified in class 705, subclass 4.
 - II. Claims 24-26, 71-74, 81-97 and 99 drawn to a method for providing an incentive, classified in class 705 subclass 14.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has utility as a method for providing insurance policy and invention II has utility such as a method for providing an incentive. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and/or because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be even though the requirement be traversed (37 CFR 1.143).
